EURODRIVE

Catalog

AC Motors DR.71 - 315, DT56, DR63

Table of contents

1	Introduction.....	8
1.1	The SEW-EURODRIVE group of companies	8
1.2	Products and systems from SEW-EURODRIVE	9
1.3	Documentation	12
1.4	Product names and trademarks	13
1.5	Copyright	13
2	Product description.....	14
2.1	DR.. AC motors	14
2.2	Standards and regulations	17
2.3	DR.. series motor features	20
2.4	International markets	22
2.5	DR.. series energy efficient motors	25
2.6	The global motor	45
2.7	DRL.. series asynchronous servomotors	50
2.8	DRM.. series torque motors	53
2.9	Functional safety (FS)	55
2.10	Corrosion and surface protection	57
2.11	Humidity/acid protection and tropicalization	58
2.12	Operating temperatures	59
2.13	The motors at a glance	60
2.14	Material overview of the DR.. motor series	76
3	General project planning information	77
3.1	EMC measures	77
3.2	Inverter operation	77
3.3	Safe switching of inductances	78
3.4	Energy-efficient motors	79
4	Overview of types and unit designation.....	80
4.1	Versions and options for the motor series DR..	80
4.2	Serial number	84
4.3	Example of the type designation	85
4.4	Examples of the type designation motor series DRL..	86
4.5	Examples of the type designation torque motors DRM..	87
4.6	Example of a nameplate for the global motor	88
4.7	Mounting position designation of motors	89
5	Technical data of the motors.....	91
5.1	Key to the data of the global motor / energy-efficient motor	91
5.2	Global motor, 50/60 Hz, 2-pole, S1	92
5.3	Global motor, 50/60 Hz, 4-pole, S1	93
5.4	Global motor, 50/60 Hz, 6pole, S1	95
5.5	Standard and energy-efficient motor 50 Hz, 2-pole, S1	96
5.6	Standard and energy-efficient motor, 50 Hz, 4-pole, S1	99
5.7	Standard and energy-efficient motor, 50 Hz, 6-pole, S1	106
5.8	Standard motor, 50/60 Hz, 2-pole, S1	109

5.9	Standard motor, 50/60 Hz, 4-pole, S1	110
5.10	Standard motor, 50 Hz, 4/2-pole, Dahlander connection, S1	112
5.11	Standard motor, 50 Hz, 8/2-pole separate winding, S3 40/60% or S1	113
5.12	Standard motor, 50 Hz, 8/4-pole, Dahlander connection, S1	114
5.13	Key to the data of DRM.. torque motors	116
5.14	DRM.. torque motors, 50 Hz, 12-pole	116
5.15	Key to the technical data for asynchronous DRL.. servomotors	117
5.16	Asynchronous DRL.. servomotors	117
6	Drive selection	121
6.1	Electrical characteristics	121
6.2	Thermal characteristics	129
6.3	Starting frequency	137
6.4	Mechanical designs	139
6.5	Mounting positions	144
6.6	Maximum speeds	145
6.7	Bearings	147
6.8	Ventilation on the motor	149
6.9	Second shaft end	154
6.10	Overhung and axial loads	156
6.11	Center of gravity of motors	168
6.12	Drive selection – non-controlled motor	169
6.13	Drive selection – global motor	174
6.14	Drive selection – DRM.. torque motors	176
6.15	Drive selection – controlled motor	179
7	Dimension sheets for DR.. motors/brakemotors	199
7.1	Notes on the dimension sheets	199
7.2	Dimension sheets for DR.. motors/brakemotors	203
7.3	Dimension sheet for DRK.. motors/brakemotors	303
7.4	Dimension sheets for motors/brakemotors with KCC and KC1	304
7.5	Dimension sheet for motors with backstop RS	308
7.6	Dimension sheets for motors/brakemotors with gray cast iron terminal box	309
7.7	Dimension sheets for DRL.. servomotors/servo brakemotors	313
8	BE brake	345
8.1	Description	345
8.2	Principles of the BE brake	346
8.3	The BE brake in detail	351
8.4	General information on brake configuration	354
8.5	Selecting the brake size and braking torque	355
8.6	Selecting the brake voltage and brake control	360
8.7	Selection of voltage supply line and protection devices	368
8.8	Brakes for global motors	373
8.9	Important design information	374
8.10	BE brake technical data	375
8.11	The safety-rated BE brake	415
8.12	BST safety-related brake control	428

9	Encoders	431
9.1	Product description	431
9.2	Designs	435
9.3	General information on drive selection	438
9.4	Overview of the electrical interfaces	439
9.5	Encoder technical data	441
9.6	Technical data for the encoder mounting adapters	450
9.7	Safety-rated encoder technical data	452
10	Other options and design types.....	455
10.1	Output options	455
10.2	First shaft end	468
10.3	Second shaft end	469
10.4	Oil seals	471
10.5	Backstop	471
10.6	Bearing options	474
10.7	Condensation drain hole	476
10.8	Degree of protection	483
10.9	Ventilation options	485
10.10	Fan guard options	489
10.11	Motor protection	493
10.12	Insulation	499
10.13	Anti-condensation heating	500
10.14	Winding protection	501
10.15	Pole-changing motors	502
10.16	Forced cooling fan	503
10.17	Terminal box	506
10.18	Integrated plug connector	509
10.19	Installed plug connectors	512
10.20	/KCC or /KC1 cage clamp	518
10.21	Other industrial plug connectors	521
10.22	Brake monitoring	522
10.23	Vibration monitoring	527
10.24	WPU smooth pole-change unit	528
11	DR.. AC motors with decentralized technology.....	531
11.1	Product description – MOVI-SWITCH®	531
11.2	Project planning notes – MOVI-SWITCH®	532
11.3	Key to the data for energy-efficient motors with MOVI-SWITCH®	545
11.4	Technical data – MOVI-SWITCH®-1E / 2S 2-pole	546
11.5	Technical data – MOVI-SWITCH®-1E / 2S 4-pole	549
11.6	Technical data – MOVI-SWITCH®-1E / 2S 6-pole	552
11.7	Information about dimension sheets	555
11.8	Dimension sheets for DR.. motors / brakemotors with MOVI-SWITCH®	557
11.9	Product description – MOVIMOT®	559
11.10	Project planning, technical data – MOVIMOT®	561
12	Prefabricated cables	562

12.1	Description	562
12.2	Project planning	563
12.3	Overview of power cables for DR.. motors	565
12.4	Overview of encoder cables for DR.. motors – MOVIDRIVE®	567
12.5	Overview of encoder cables for DR.. motors – MOVIAXIS®	568
12.6	Overview of built-in encoder cable for DR.. motors	569
12.7	Overview of extensions for add-on encoder cables for DR.. motors	570
12.8	Power cable	572
12.9	Add-on encoder cables for MOVIDRIVE®	579
12.10	Add-on encoder cables for MOVIAXIS®	585
12.11	Built-in encoder cable	591
12.12	Extensions for add-on encoder cables	595
12.13	Cable specifications of the power cables	599
12.14	Cable specification of encoder cables	603
13	AC motors DT56, DR63	605
13.1	Technical data DT56, DR63	605
13.2	General notes on the product description	607
13.3	Special markets	608
13.4	Corrosion and surface protection	609
13.5	Type designation for AC motors and options	610
13.6	Important order information	611
13.7	Mounting position designations of motors	612
13.8	Available motor options	612
13.9	Standards and regulations	612
13.10	Electrical characteristics	613
13.11	Circuit breaker and protective equipment	616
13.12	Thermal characteristics	617
13.13	Starting frequency	618
13.14	Mechanical characteristics	619
13.15	Overhung loads and axial forces	619
13.16	Project planning, technical data – plug connectors	621
13.17	Project planning, technical data – encoders	627
13.18	Project planning, technical data – protection canopy C	633
13.19	Project planning for AC motors with inverters	633
14	Dimension sheets – DT56, DR63.....	634
14.1	Information about the dimension sheets	634
14.2	Dimension sheets for DT56, DR63 motors/brakemotors	635
15	Brakes – DT56, DR63.....	641
15.1	General	641
15.2	Principles of the SEW brake	642
15.3	Details of the SEW brake system	644
15.4	Brake control	646
15.5	AC brakemotors DR../DT...BR/BMG	648
15.6	AC brakemotors DR../DT...BM(G) with frequency inverter	652
15.7	Block diagrams	653

15.8	Technical data	654
15.9	Project planning notes	657
16	Address Directory	663
17	Order and inquiry form	683
	Index	684
