

DriveBenefits

Intelligent Material Flow with DriveTag –
Main Features at a Glance

DriveTag – Your Key to Intelligent Material Flow

This DriveBenefits module makes it easier for you to correctly sort and identify products and saves precious time in the receiving department, in the warehouse, during assembly processes and in the service department. The functional labels with printed barcodes are placed on products and packages.

Simply outstanding

- Quick and efficient sorting of products using a barcode scanner
- Simple product identification throughout the entire product life cycle
- Faster product sorting with fewer errors
- Automated goods receiving
- And much more
