1 Revision

INFORMATION

This revision serves to add the following content to the "DRS../DR2S.. Gearmotors (IE1)" catalog:

- Chapter 4.8 "Project planning notes – Motors": New chapter with project planning note on inverter operation (→  3).

1.1 Project planning notes – Motor

1.1.1 Inverter operation

AC motors from SEW-EURODRIVE can be operated with inverters. If motors at the frequency inverter are operated at speeds $> 1800 \text{ min}^{-1}$, SEW-EURODRIVE recommends using shaft seals made of FKM (fluorocarbon rubber) on the A and B sides of the motor.
